# Learning More About Our Services

---

## Strategy Consulting

We analyze your business practices and goals and make suggestions for improvements or company direction. Helping you or your organization cutting costs, increasing revenue and making key decisions.

We will help you or your organization define markets and identify trends within a specific market. We will troubleshoot current problems and implement solutions.

Also, we will analyze a business's competitors to help establish best objectives and goals. For you or your organization.

## Operations consulting

We sets the pace by guiding your team's efforts to ensure the right processes are being utilized in the right manner.

We providing necessary feedback and recommendations to management when the division is faced with operational difficulties.

Helping to plan, design, and implement new operational processes in process improvement projects from start to finish.

## Financial and Tax consulting

We provide advice to individual or entity on income tax returns and a range of financial matters, including deductions, credits and interest statements.

## Information technology consulting (IT consulting)

We analyzing an organization's data, determining information system requirements and defining project objectives, making recommendations, such as suggesting appropriate hardware, software and systems, designing, installing and trialing new systems and software, and fixing any issues that arise, compiling and presenting information, writing reports and documentation, repairing computer problems and removing viruses, training users, and responding to feedback.

## Human resources consulting (HR consulting)

We advising management on the administration of human resources policies and procedures, analyzing a company's current HR programs and recommending solutions, developing, revising, and implementing HR policies and procedures, ensuring HR programs and services are in compliance with established policies and procedures and state/federal laws and regulations, preparing and maintaining reports related to specific HR projects, assisting with the development and coordination of recommended changes regarding workflow, developing methods for compiling and analyzing data for reports and special projects, conducting audits of HR activities to ensure compliance, and presenting training sessions related to specific HR programs.

## Accounting and Audit Services

We perform Accounting and Audits of many types of organizations including non-profits, governmental, condominium associations and a variety of commercial businesses.

## Real Estate Services

We advise on market conditions, prices, and mortgages, helping client to buy, sell, and rent property, Show properties to potential buyers and renters, Present purchase offers to sellers, facilitate negotiations between buyers and sellers, review purchase contracts to ensure terms are met, promote properties with ads, listings, and open houses, prepare loyalty contracts, purchase agreements, rental agreements, deeds and other documents for each real estate transaction.
